

Directions to The Old Dairy, Cadhay, Ottery St Mary from Exmouth to the Daisymount roundabout.

If travelling from Exmouth, come along the B3180 Woodbury Common road until you come to the crossroads at the Halfway Inn. Cross the A3052 (a left and an immediate right at the Halfway Inn) and continue along the B3180, passing through West Hill until you reach the Ottery St Mary “Daisymount” roundabout, and then follow signs to Ottery St Mary (third exit on the roundabout). The road you will be on is called Barrack Road and brings you right into the centre of Ottery.

You come over the large metal bridge over the River Otter and follow the road around up past a new housing development, the road then bears left by St Anthony’s catholic church and comes past the Doctors surgery (on the left) and Fire Station (on the right). This road is Canaan Way, stay on this road (do not turn right as most traffic does) and carry on past the Council Car park on your left. Be careful as the road narrows here for a while, but then opens out and follow it around over two stone bridges over the river, and then past a pair of old level crossing gates. Keep on this road and you will then see on your left across the fields a large grey stone Manor house. This is Cadhay House, and our offices are on the estate adjacent to the house

After a short distance a large tree lined driveway appears on the left and on the right is a Black sign with “Cadhay” in white writing. Turn left and travel up the drive to the top, passing the house on your left. The driveway then turns 90° right and on the left are some old brick and stone farm buildings. We are the first building on the left and have a silver milk churn on the front step and the arrow on the map below shows our location. You can park on the grass either on the right or the left, and the entrance to the office is around the back of the building. If you are using Sat Nav it brings you a different way into the back entrance!
